MANY PLANTS

Have fragrant blossoms. Many
others are fragrant only when
crushed.

There is one which is fragrant in
bloom and fragrant also when its
ripened fruit is crushed and made
into a drink. We know it as coffee.
To enjoy the most delicious fra-
grance of coffee in its highest state
of perfection you should buy what
you are sure is coffee, pure and
simple, without any adulteration.

Chase & Sanborn's Coffee is a
pure coffee. What is more, it is the
best coffee that can be raised by
experienced planters. Furthermore
every bean is selected and the same
care is maintained in roasting and
packing, until it reaches the con-
sumers' hands.

Because it is pure it is healthful
and the price at which it sells is so
little in advance of cheaper grades
that one stops and wonders why
any one should not always have
Chase & Sanborn's Seal Brand
Coffee, or any one of their high
grade brands which come in parch-
ment lined colored bags.

Chase & Sanborn's Coffees.

DAWSON BOUND BOATS ARE AT HELL GATE

By telegraphic advices it was learned
yesterday that the steamers Bailey and
Zealandian had reached Hell Gate.
They were waiting there for a jam to
go out. How long the detention will
be was not learned, but it is believed
the river will be sufficiently clear to
permit them to proceed today or to-
morrow.

By the same source it was ascertain-
ed that the steamer Closset was sched-
uled to leave Dawson for up the river
yesterday and that she would be fol-
lowed by the Eldorado which will sail
some time today.

These boats belong to the large river
fleet which is being operated by the
White Pass & Yukon railway com-
pany, under the direct management of
Superintendent Darling, who is now on
the inside. The Bailey and Zealandian
are making splendid progress on this
their initial voyage of the season to
Dawson. They will be among the first
boats to reach the metropolis if not
the first. They are being pushed for-
ward just as fast as prudence and care-
ful navigation will allow, and being
lightly loaded in anticipation of shal-
low water, have now gotten over the
places which were regarded as the
worst and will likely complete the voy-
age with very little more delay.

The Closset is a light draft boat
and will make the ascent quite easily,
although the water is at a low stage for
navigation. It is believed she will
bring the first mail to come out by the
water this year.

The progress being made by the two
boats going down and the starting of
the two up at the earliest practical mo-
ment indicate that the White Pass &
Yukon, which owns them, is watching
conditions very closely and is deter-
mined to give the public the best pos-
sible service the remainder of the fleet
—some twelve or fourteen steamers—
will be pressed into service on the
Dawson and Atlin runs just as soon
as practical. The company has a
great deal of business with regular cus-
tomers, besides having a contract for
transporting several thousands tons of
freight for the United States govern-
ment, and all of the boats will be need-
ed. Part of the government supplies,
intended for Fort Gibbon, will arrive
this week. Some of the boats will be
used primarily for freight and others
for passengers. By this arrangement
people can be transported to their des-
tination much more expeditiously than
if they were compelled to await the
handling of large quantities of freight.

IN HONOR OF THE DEAD

Those Who Wore the Blue
Will Beautify Graves
of Comrades

SERVICES AT CEMETERY

The Aged Veterans Will March to
the Cemetery To Pay a Fitting
Tribute to the Fallen—A Squad
of the Nation's Defenders Will
Escort Them and Fire the Salutes

The veterans have perfected arrange-
ments for the proper observance of
Memorial Day. The Sunday preced-
ing the 30th of May is always set apart
for the religious portion of the ser-
vices in memory of the honored dead
and next Sabbath evening at the Mc-
Cabe college, Rev. M. A. Covington,
who has been designated by the old
soldiers will preach a special sermon.
It has been desired that the services be
union in character and the ministers
and congregations of the other church-
es are cordially invited to attend.

Mrs. Geo. E. Howard has been ap-
pointed chairman of the ladies' relief
corps, and will have charge of the de-
corations of the house of worship. Mem-
bers of the corps and all other ladies
who are interested are invited to help
Mrs. Howard.

It is earnestly requested by the vet-
erans that the ladies of the city will
see that flowers are provided for the
decoration of the graves of those who
risked their lives that the country
might live and have now passed away.

Comrade Broemser will see that con-
veyances for the taking of the ladies
and children to the cemetery are on
hand. Mr. Shorthill will deliver an
address at the graves and other appro-
priate services will be held.

The following committee to provide
music has been named: Prof. Wall,
Mrs. Patterson and Mrs. L. A. Har-
rison.

Through the kindness of Capt. Jenks
a detail of Company L, in charge of a
non-commissioned officer will escort
the old soldiers to the cemetery and
fire an army salute over the graves of
the comrades.

The veterans will meet at 2 o'clock
on Decoration Day at the old city hall
and march in a body to the graveyard
yard.

It is earnestly desired by those in
charge that the observance of the day
be as general as possible and for this
purpose they ask that the places of
business be closed from 2 to 5 p. m.
so that proprietors and clerks can go
to the cemetery.

At the meeting on Tuesday evening
in addition to arranging for Memorial
Day, an election of officers for the club
was held. It resulted in the selection
of the present incumbents who are as
follows:

President, L. A. Green.
Vice-president, T. Broemser.
Treasurer, T. A. Shorthill.
Secretary, Alexander Green.

SNOW IN PORCUPINE

Dr. Gibbons Returned From There
Yesterday Morning

Dr. Gibbons returned from Porcu-
pine yesterday morning. He says the
country is going to be very lively this
summer, but that not much can be done
in the way of work until the snow goes
off. It is disappearing slowly. There
are three feet on the level at Porcupine
City and five feet in the woods. He
will return with the expectation of
spending the summer there next week.

Important Meeting

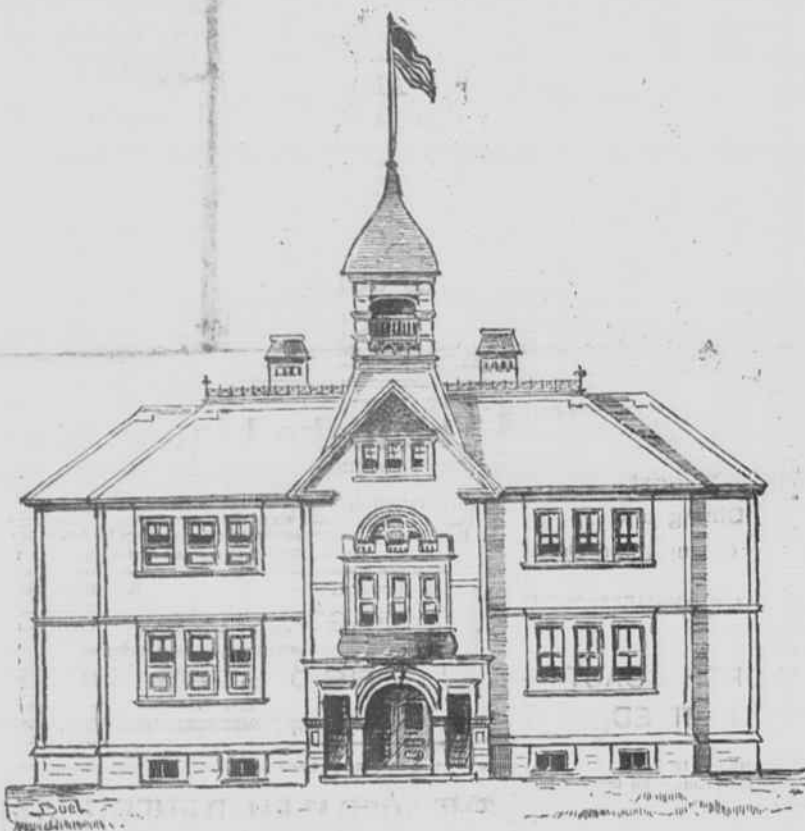

There will be a meeting of the B. P.
O. E. at their hall this evening at 8:30
sharp. A full attendance is requested
as business of importance to the order
is to be brought up.

Ladies Guild

There will be a meeting this after-
noon at 2 P. M. of the Ladies Guild
at the residence of Mrs. Cleve Hall,
4th Avenue bet. Main & State Sts.

Bosworth & Aggers, wholesale deal-
ers, Fourth avenue, between Broadway
and State streets, received by last boat
choice poultry, butter eggs and vege-
tables.

SKAGWAY'S PUBLIC SCHOOL BUILDING.

The general plan is a parallelogram 88 feet long and 76 feet wide, and contemplates a building of two stories and basement. The entrance is designed to be at ground level, so that the little ones in the wintry days will not be endangered by climbing slippery steps. Entrance is effected through either side of a double vestibule, swinging doors from which lead to a stairway nine feet wide going to the spacious corridor on the main floor. Off this corridor are the four class rooms. Each is reached through one direct entrance and another through a cloak room thus allowing the pupils in the morning to dispose of their wraps before going in. Especial attention has been given to providing abundance of light and the rooms and seats are so located that the light comes to the pupils from the rear and over the left shoulder—two requirements exacted in all modern school buildings. Janitor's rooms for the keeping of brooms, chalk, etc., are provided for under the main stairway. There are two of them.

A wide rear stairway leads down to the toilet rooms and out through the rear vestibule to children's closets. The main stairway to the basement also goes down from the back. The building is intended to be heated by two large hot air furnaces. A brick stack 3x5 feet for each furnace is called for. Inside of each chimney will be put one made of steel to carry off the smoke and the remaining space will be used for ventilation. Branch ventilators from each of the class rooms will be run to these main shafts.

The building is so designed that it can be emptied of its 320 inmates in less than five minutes. All of the class rooms open directly on to the wide hallway. They are 25x33 feet inside dimensions with 13-foot ceilings. The ceilings of the cloak rooms will be only seven feet high to admit of free circulation of air.

A spacious principal's room is provided for just off the landing to the first floor, within easy reach of all parts of the building. A general utility room is directly over the principal's.

The roof, a modified Mansard, will be shingled on the pitches and the deck covered with tin. By trussing the roof is well sustained without the necessity of pillars or posts in the rooms.

The floors will be double with four inches of deadening. Sliplap covered with tarpaper and then sheathed with rustic will make up the exterior walls, while between the studding will be stripped, lathed and back plastered. The interior finish, of course, will be lath and plaster, which gives a double plastered wall with a 2 1/2 inch air space.

Cold

Feet

The remedy is a hot water bottle. It is a family necessity, and no per-
son should be without one. You cannot tell when someone in your family
may be attacked with a chill, rheumatism or neuralgia, when a water bottle
will afford almost instant means of relief.

We have them in all grades, sizes and prices. Don't forget us when in
need of a fountain or bulb syringe, nipples or anything in the rubber line.
